THE BRITISH JOURNAL OF NON-DESTRUCTIVE TESTING

VOLUME 29 1987

The British Journal of Non-Destructive Testing is published by
The British Institute of Non-Destructive Testing, 1 Spencer Parade, Northampton NN1 5AA, England
Telephone: Northampton (0604) 30124 (answering service) *Telex:* 31612 OTSSG

VOLUME 29 1987

INDEXES

KEY TO ISSUES

Number 1 January	**1-68**
Number 2 March	**69-132**
Number 3 May	**133-212**
Number 4 July	**213-296**
Number 5 September	**297-392**
Number 6 November	**393-488**

REGULAR FEATURES AND SHORT TITLES

Aerospace Space 385

Annual General Meeting 450

Annual Report 1986 202

Bookcase 40, 108, 170, 273, 352, 460

Book Reviews:
- What every Engineer should know about threaded fasteners: Materials and Design 40
- Quality Assurance in Medical Imaging 40
- Mechanical Design Failure Analysis 170
- Novel Techniques of Non-Destructive Examination 170
- Materials for Construction and Building in the UK 352
- Materials and the Designer 352

AUTHOR INDEX

Adhikari, B.C.
A new concept of crack depth measurement 96

Ausburn P.K. (with Grider D.E.)
An investigation of the focal spot size in a microfocus X-ray tube 15

Bindal V.N. (with Kumar A, Kumar Y, Lal Jagdish.)
Monitoring the effect of environmental pollution on marble stone structures using ultrasonic NDT 322

Bollini G.J. (with Bridge B.)
The effect of surface roughness on ultrasonic backscatter monitoring of intrinsic (subsurface) structure 228

Booth G. (with Hall K.G.)
Ultrasonic defect evaluation for high fatigue strength bridge welds 403

Borloo E. (with Crutzen S and Jehenson P.)
The PISC II RRT plates and their intended defects 307

Bridge B. (with Bollini G.J.)
The effect of surface roughness on ultrasonic backscatter monitoring of intrinsic (subsurface) structure 228

Bridge B.
An appraisal of ultrasonic methods for the non-destructive evaluation of particle and fibre-filled thermoplastics 326

Bridge B.
Ultrasonic non-destructive evaluation of hydroxyapatite-filled polyethylene, a novel prosthetic material 418

Brockway R.A.
Consumer Protection Act 1987 452

Builtjes J.H. (with Daum W, Rose P., Heidt H.)
Automatic recognition of weld defects in X-ray inspection 79

Cartwright D.K.
Validating the inspection of PWR pressure vessels 409

Casey N.F. (with Taylor J.L.)
An instrument for the evaluation of wire ropes; a progress report 18

Chapman G.H.
NAMAS accreditation for non-destructive testing–in permanent laboratories and on-site 333

Crutzen S. (with Jehenson P., Borloo E.)
The PISC II RRT plates and their intended defects 307

Crutzen S. (with Haines, N.F., Vinche, C.J.)
A review of the major PISC II round robin test 411

Daum W. (with Rose P., Heidt H., Builtjes J.H.)
Automatic recognition of weld defects in X-ray inspection 79

Edwards C. (with Palmer S.B.)
A magnetometer for surface flux density measurements in MPI . 304

George D.L.
An introduction to impedance plane phase analysis eddy current equipment and its use on aircraft structures 88

Grider D.E. (with Ausburn P.K.)
An investigation of the focal spot size in a microfocus X-ray tube 15

Haines N.F. (with Crutzen S., Vinche C.J.)
A review of the major PISC II round robin test 411

Hall K.G. (with Booth G.)
Ultrasonic defect evaluation for high fatigue strength bridge welds 403

Halmshaw R.
The interpretation of weld radiographs 162

Heidt H. (with Daum W., Rose P., Builtjes J.H.)
Automatic recognition of weld defects in X-ray inspection 79

Heidt H (with Schnitger D., Stade J.)
Classification of X-ray films: new results and proposals 143

Highmore P. (with Short K.A.)
A beginner's guide to computers and computing 337

Jehenson P. (with Crutzen S., Borloo E.)
The PISC II RRT plates and their intended defects 307

Kumar A. (with Bindal V.N., Kumar Y., Jagdish Lal)
Monitoring the effect of environmental pollution on marble stone structures, using ultrasonic NDT 322

Kumar Y (with Bindal V.N., Kumar A., Jagdish Lal)
Monitoring the effect of environmental pollution on marble stone structures, using ultrasonic NDT 322

Jagdish L. (with Kumar A., Kumar Y., Bindal V.N.)
Monitoring the effect of environmental pollution on marble stone structures, using ultrasonic NDT 322

Lavender D.H., Lavender J.D.
An NDT audit--what to expect 264

Levy J.C.
The Engineering Council — five years of progress 98

McDonald N. (with Nichols R.)
An introduction to the PISC II project — programme for the inspection of steel components 223

Mercer W.L.
NDT — A vital force in engineering 11

Nichols R. (with McDonald N.)
An introduction to the PISC II project — programme for the inspection of steel components 223

Norriss T.H.
Multiple crack considerations for skin joints in high life aircraft . 25

Ogilvie J.A.
The influence of austenitic weld geometry and manufacture on the ultrasonic inspection of welded joints 147

Ogilvie J.A.
On the use of focused beams in austenitic welds 238

Owen B.
Measurement--a key to the safe use of ionising radiation 429

Palmer S.B. (with Edwards C.)
A magnetometer for surface flux density measurements in MPI . 304

Prince G. (with Shortland M.)
Condition monitoring. The automated manufacturing perspective 94

Richardson I. (with Smith E.D., van der Merwe G.J.J.)
Anomalous ultrasonic attenuation in long shafts 157

Rose P, (with Daum W., Heidt H., Builtjes J.H.)
Automatic recognition of weld defects in X-ray inspection 79

Sanford-Francis C.H.A.
Measurements of magnetic material changes in steels with fatigue 83

Schnitger D. (with Heidt H., Stade J.)
Classification of X-ray films: new results and proposals 143

Short K.A. (with Highmore P.)
A beginner's guide to computers and computing 337

Shortland M. (with Prince G.)
Condition monitoring. The automated manufacturing perspective 94

Smith E.D. (with Richardson I., van der Merwe G.J.J.)
Anomalous ultrasonic attenuation in long shafts 157

Smith P.H.
Practical application of "Creeping" waves 318

Stade J. (with Schnitger D., Heidt H.)
Classification of X-ray films: new results and proposals 143

Taylor J.L. (with Casey N.F.)
An instrument for the evaluation of wire ropes; a progress report 18

Van der Merwe G.J.J. (with Smith E.D., Richardson I.)
Anomalous ultrasonic attenuation in long shafts 157

Vinche C.J. (with Haines N.F., Crutzen S.)
A review of the major PISC II round robin tests 411

SUBJECT INDEX

ACOUSTIC EMISSION
An instrument for the evaluation of wire ropes: a progress report.
N.F. Casey: J.L. Taylor 18

AEROSPACE
Multiple crack considerations for skin joints in high life aircraft.
T.H. Norriss 25
An introduction to impedance plane phase analysis eddy current equipment and its use on aircraft structures.
D.L. George 88

AUSTENITIC STEELS
The influence of austenitic weld geometry and manufacture on the ultrasonic inspection of welded joints.
J.A.Ogilvie 147
On the use of focused beams in austenitic welds.
J.A.Ogilvie 238

CONTROVERSY
The interpretation of weld radiographs.
R. Halmshaw 162

CONDITION MONITORING
The automated manufacturing perspective.
G. Prince; M. Shortland 94

CRACK DETECTION
Multiple crack considerations for skin joints in high life aircraft.
T.H. Norriss 25

CRACK MEASUREMENT
A new concept of crack depth measurement.
B.C. Adhikari 96

COMPUTERS AND COMPUTING
A beginner's guide to computers and computing.
K.A. Short; P.J. Highmore 337

EDDY CURRENT TESTING
An introduction to impedance plane phase analysis eddy current equipment and its use on aircraft
D.L. George 88

ENGINEERING–QUALITY CONTROL
NDT — a vital force in engineering.
W.L. Mercer 11

IONISING RADIATION MEASUREMENT
Measurements — a key to the safe use of ionising radiation.
B. Owen 429

MAGNETIC METHODS
Measurement of magnetic material changes in steel with fatigue.
C.H.A. Sanford-Francis 83
A new concept of crack depth measurement.
B.C. Adhikari 96
A magnetometer for surface flux density measurement in MPI.
C. Edwards: S.B. Palmer 304

MATERIALS PROPERTIES
Measurement of magnetic material changes in steels with fatigue.
C.H.A. Sanford-Francis 83
Monitoring the effect of environmental pollution on marble stone structures, using ultrasonic NDT.
V.N. Bindal; A. Kumar; Y. Kumar; Jagdish Lal 322
An appraisal of ultrasonic methods for the non-destructive evaluation of particle and fibre-filled thermoplastics.
B.Bridge 326
Ultrasonic non-destructive evaluation of hydroxyapatite-filled polythylene, a novel prosthetic material.
B. Bridge 418

MODELLING
The influence of austenitic weld geometry and manufacture on ultrasonic inspection of welded joints
J.A. Ogilvie 147
On the use of focused beams in austenitic welds.
J.A. Ogilvie 238

NDT AUDIT
An NDT audit — what to expect.
D.H. Lavender; J.D. Lavender 264

NEUTRON RADIOGRAPHY
Newsletter No 13 40
Newsletter No 14 352
Newsletter No 16 460

NAMAS
NAMAS accreditation for non-destructive testing — in permanent and on-site
G.H. Chapman 333

PISC II
An introduction to the PISC II project — programme for the inspection of steel components.
R. Nichols; N. McDonald 223
The PISC II RRT plates and their intended defects.
S. Crutzen; P. Jehenson; E. Borloo 307
A review of the major PISC II round robin test results.
N.F. Haines; S. Crutzen; C.J. Vinche 411

RADIATION SAFETY
Measurement — a key to the safe use of ionising radiation.
B. Owen 429

REAL-TIME RADIOGRAPHY
X-ray real-time imaging for weld inspection: IIW 2nd progress report 22
X-ray real-time imaging for weld inspection: IIW 3rd progress report 426

RADIOGRAPHY
An investigation of the focal spot size in a microfocus X-ray tube.
D.E. Grider; P.K. Ausburn 15
Automatic recognition of weld defects in X-ray inspection.
W. Daum; P. Rose; H. Heidt; J.H. Builtjes 79
Classification of X-ray films: new results and proposals.
H. Heidt; D. Schnitger; J. Stade 143
The interpretation of weld radiographs.
R. Halmshaw 162

ULTRASONIC TESTING
The influence of austenitic weld geometry and manufacture on ultrasonic inspection of welded joints.
J.A. Ogilvie 147
Anomalous ultrasonic attenuation in long shafts.
E.D. Smith; I. Richardson; G.J.J van der Merwe 157
The effect of surface roughness on ultrasonic backscatter monitoring of intrinsic (subsurface) structure.
B. Bridge; G.J. Bollini 228
On the use of focused beams in austenitic welds.
J.A. Ogilvie 238
Practical application of "Creeping" Waves.
P.H. Smith 318
Monitoring the effect of environmental pollution on marble stone structures, using ultrasonic NDT.
V.N. Bindal; A. Kumar; Y. Kumar; Jagdish Lal 322
An appraisal of ultrasonic methods for the non-destructive evaluation of particle and fibre-filled thermoplastics.
B. Bridge 326
Ultrasonic defect evaluation for high fatigue strength bridge welds.
K.G. Hall; G. Booth 403
Ultrasonic non-destructive evaluation of hydroxyapatite-filled polyethylene, a novel prosthetic material.
B. Bridge 418

WELD INSPECTION
The influence of austenitic weld geometry and manufacture on ultasonic inspection of welded joints
J.A. Ogilvie 147
The interpretation of weld radiographs.
R. Halmshaw 162
On the use of focused beams in austenitic welds.
J.A. Ogilvie 238
Practical application of "Creeping" waves.
P.H. Smith 318
Ultrasonic defect evaluation for high fatigue strength bridge welds.
K.G. Hall; G. Booth 403
Validating the inspection of PWR pressure vessels.
D.K. Cartwright 409
X-ray real-time imaging for weld inspection: IIW 2nd progress report 22
X-ray real-time imaging for weld inspection: IIW 3rd progress report 426
